SUMMARY

Product Manager with 6+ years of experience owning and scaling B2B SaaS platforms across Healthcare and HR Tech. Strong track record of driving complex, high-impact product initiatives across procurement, vendor integrations, automation, and internal platforms. Led AI-driven and data-heavy systems across discovery, execution, and scale, delivering **30% revenue uplift**, **70% operational efficiency gains**, and **80% faster processing**. Experienced in partnering with enterprise customers, engineering, and operations teams to ship reliable, scalable products.

EXPERIENCE

DENTIRA INC.

May 2021 – Present | Bangalore, India

Product Manager – Procurement and Vendor Management

- Owned **vendor management & integrations** across web, email, and cXML flows, automating **order creation (OC)**, **tracking**, and **invoicing** across catalog ingestion, pricing sync, inventory, and end-to-end order lifecycle.
- Led the development of a scalable **supplier integration framework** that simplified vendor onboarding and migration across multiple ordering channels, reducing **manual support effort by 80%** and improving **order processing reliability by 90%**.
- Partnered with engineering to define **ML confidence thresholds**, **fallbacks**, and **human-in-the-loop workflows** to ensure reliability in automated procurement flows.
- Led **AI-powered invoice automation** (ML-based PDF/cXML parsing), replacing Coupa/SAP workflows and driving **+30% enterprise revenue uplift**.
- Owned end-to-end internal tool development allowing internal team to perform DB changes independently, **reducing Dev dependency by 80%**.
- Drove data-led UX improvements using MongoDB & LogRocket, resulting in **80% faster order processing**.
- Partnered with US enterprise customers and India-based engineering teams on large-scale rollouts.

EVE-IT LLP

Sep 2021 – Mar 2024 | Startup

Product Lead (Co-founder)

- Bootstrapped digital agency to ₹16L revenue**, serving 18+ MSMEs with tailored growth strategies.
- Designed and executed acquisition experiments (SEO, PPC, email) across B2B clients.
- Managed cross-functional team of 10+** (design, engineering, growth); shipped UX revamps improving retention and conversion.
- Shipped digital products and growth frameworks for B2B/MSME clients: <https://www.eveit.in/>

ADVANTAGE CLUB.AI

Jun 2020 – May 2021 | Gurugram, India

Business Analyst (Product)

- Onboarded **20+ enterprises and 40+ partner brands**, driving platform adoption.
- Championed **Agile product practices** to improve integration velocity and stakeholder alignment.
- Collaborated with design to revamp engagement workflows, delivering **62% uplift in user activity**.

PROJECTS

FinServCo CX Intelligence Platform — Built AI-driven conversation quality analytics using NLP to surface systemic CX issues via real-time dashboards for Product, CX, and Ops teams.

Daily Energy Coach – Ebb — Designed & built a privacy-first energy coaching app syncing calendar events with wearable data (HRV, sleep) to optimize cognitive load. Built React/Streamlit prototype featuring Cognitive Alignment Score & focus-shield notifications. ([GitHub](#) | [Prototype](#))

Mental Health MVP (Anonymust) — Built AI-assisted triaging and recommendation flows; validated TAM (~150M users), achieving **60% pilot adoption**, ARR potential ₹12 Cr. ([GitHub](#) | [Case Study](#))
